

Environmental Policy

Townsville Airport Pty Ltd (TAPL) is committed to developing and operating the airport in an environmentally responsible and ecologically sustainable manner.

To achieve continuous improvement in environmental performance consistent with the principles of ISO14001 standard, TAPL will:

- Strive to minimise impacts on the environment including pollution of water, air and soil and protect biodiversity.
- Seek to minimise the generation of waste and greenhouse gas emissions and are committed to reducing the consumption of energy and water.
- Ensure we comply with applicable environmental legal requirements and other voluntary requirements to which TAPL subscribes.
- Set, implement and review environmental objectives and targets established in the Airport Master Plan and Environmental Management System (EMS).
- Measure, monitor and report on our environmental performance.
- Define roles and responsibilities which are accountable for the effectiveness of the EMS.
- Provide adequate resources including finances, to facilitate the fulfilment of our obligations.
- Ensure we incorporate environmental considerations into decision making.
- Implement and communicate this Policy throughout our operations.
- Conduct appropriate training for those whose activities may impact the environment.
- Make this policy publically available.
- Review this policy following legislative or organisational changes, or as a minimum, every three years.

Kevin Gill

Chief Operating Officer
Townsville Airport Pty Ltd
